Subject: Request for subsidy by
The Association for Protection of
Jewish Orphans

Attached is a copy of a resolution regarding assistance to
Association for Protection of Jewish Orphans, following your
request No.451/28 from May 24, 1928,

At the same time we would like to let you inform that there are
is no evidence that Jewish children from this parish are under
the supervision of above Association.

Translator's notes

1. It is evident from pp. 2 & 3 of the document that the above letter was addressed to the Kremenets Branch of the Provincial Council.
2. The branch letter No. 451/28 is not available for translation.
3. A copy of the parish resolution is not available for review either, and it is not clear how the parish responded
4. Parish notables obviously are not telling the whole truth, since on pages 11 and 12 there is a list of thirty two (32) Jewish orphans located in Bialozorka under the supervision of the Association.

HEAD OFFICE
WOLYN ASSOCIATION FOR THE PROTECTION OF JEWISH ORPHANS AND NEGLECTED
CHILDREN

Rowne, 28 December 1928

- To

Regional Council
in Kremenets

It has been now eight years since our Association engaged in protection for poor and neglected orphans. During this time, the Association provided orphans with shelter, food, medical assistance, general and professional education, etc. Our main effort remains to establish suitable conditions for their general and professional education. The best proof of our successful activities in this particular field is the fact that currently in Kremenets District there are 96 independent ex-orphans who are managing with the work of their own hands to provide for their own livelihood. Our Association, besides 80 orphans in the Kremenets orphanage also assists 220 orphans located in the following towns of the Kremenets District: Vishgorodok (Wyszogrodek), Vishnevets (Wisniowiec), Bialozerka (Bialozerka), Shumskoye (Szumsk) and Pochaev (Poczajow). All orphans are provided with assistance, clothing, medical help and general and professional education.

We are convinced that we will be able to achieve results that are even more successful in the general and professional education fields, when our efforts are concentrated in assisting children residing in small towns. In those small towns, children currently are not receiving adequate education in trades that are available only in larger towns - we could assist them in establishing dormitories and educational courses.

The first step in order to achieve the goal is to build in Vishnevets (Wisniowiec) a home for children of productive age since this town has already established the sole Kremenets District trade school available for all District's children.

Improvements in our continuous activities and especially in trade education programs depend on the amounts of grants received from the communal organizations.

We would like to remind you that during the past years, the majority of Kremenets District Commune Councils refused to provide any or very little assistance. Kremenets Regional Council also provided very small grant.

Beside the lack of assistance from the commune councils and organizations, our past activities continued under the great stress and efforts but due to our current material situation, we can not afford to take full financial responsibilities for year 1929/30 for about 50% of the needed costs.

We believe that our long experience in social assistance and our efforts in soliciting funds, gave us moral grounds to obtain funds from the Regional Council to cover deficit in amount of Zł 26,340, which constitutes about 50% of the general expenses.

We refer to Article 5 of the Social Assistance Rules and Regulations, which states that the communal councils are responsible for supplementing assistance provided by parishes and small towns.

Our budget for year 1929/30 and complete list of children are appended to this letter with the kind request to provide Association funds related to the number of children and scope of our work.

We are awaiting your written reply

NAME INDEX

NOTE: When both Polish and Hebrew/Yiddish names are given in the text, the transliteration from the Hebrew name is the main entry in this Index. The transliterated Polish name is in parentheses with a "see" reference to the transliterated Hebrew/Yiddish name. We also have used "see also" references when appropriate. Each entry gives the page number and line number separated by a slash.
