THE OLD STONE CHURCH AT NEW ENGLAND CROSSROADS

THE APPROACHES TO "BIVALVE"

EAST LAKE, BRIDGETON

The Inquirer Roadster

A WEEKLY SUPPLEMENT FOR ROAD TRAVELERS, CYCLISTS, HORSEMEN AND PEDESTRIANS.

No. 76 PHILADELPHIA, SUNDAY, SEPTEMBER 17, 1899.

Port Norris, N. J. and Oysters

With Side Trips from Vineland to Bridgeton and Bridgeton to Millville

Port Norris is accessible to us by two routes, one shorter than the other by about four miles. The more direct of the two follows the itinerary of our Outings 20 and 20 as far as Mauriceville; there instead of crossing the river we turn R to Lyleville; at the latter place we wheel L for Port Norris and reach it at the end of four miles from Mauriceville.

The slightly longer route goes via Bridgeton as per our Outing 41.

Port Norris is accessible to us by two routes, one shorter than the other by about four miles. The more direct of the two follows the itinerary of our Outings 20 and 20 as far as Mauriceville; there instead of crossing the river we turn R to Lyleville; at the latter place we wheel L for Port Norris and reach it at the end of four miles from Mauriceville.

The slightly longer route goes via Bridgeton as per our Outing 41.

On your trip 78," writes a New Jersey reader, "you spoke of Port Pleasant shad; if you'd bring your friends to Port Norris in September or October they'd know more about oysters than they ever did before, most like."

I comply with the above suggestion all the more readily as it suggests other short trips in South Jersey which will make connections with three points already covered in previous Outings.

In the thrifty town by the Cohansey River ride one block eastward on Commerce street, turn R on South Pearl street. At the fork beyond the creek bear R into South avenue and follow it out past the trolley barn on L and the race track on R for over a mile, when a little creek shows you the city's limit and a good, wide, inviting gravel road presents itself to you.

For eight miles from this point, out of the eighteen which separate us from Port Norris, you may rely upon its well-hardened surface or an equally good roadside.

A mile and a half's ride takes us to Fairton, down by Crystal Lake and up to the village crossing, where we take R for Cedarville (L to Millville, 10 m.). Quite a "fair" little "ton" this is, with its quota of fishing smacks.

At this fork ¼ m. beyond crossing keep L (R to Buck Neck, 6 m.), and transfer your patronage from the road to this tiny path.

Yet another crossroad. From R we are joined by a road coming from the said Buck Neck, while in front of us is a fork with an old-time church standing in the angle; the R branch goes to Sayre's Neck; we take the left, passing in front of the church.

This spot is spoken of variously as "Old Stone Church Crossroads," or "New England Crossroads." The church is now 110 years old; the occupant of one of the tombs by the side of it has it recorded on his headstone that he was "the first buried in this ground, 1780."

A school is almost the first building to welcome us into Cedarville—a good, healthy sign. It is not the only school in the locality, either, nor is it unaccompanied by churches and pleasant dwellings.

If there be one thing that Cedarville is proud of (I am told) it's her good roads; and well she may. See us spinning along towards yonder creek!

By the way, do you notice this antiquated church-like log structure on L? It is now the lodge-room of the village. Don't look at its little cupola if you care to know the time of day; there is a clock up
